### To Whom It May Concern

It is my pleasure to strongly recommend **Mr. Sumant Mishra** for an internship trainee at the organization.

I am **K K S Yadav**, an Assistant Director of Telecom at ALTTC BSNL. I have several years of experience working in field Telecom & IT and have seen many young professionals come & go, **Mr. Sumant Mishra** is one individual I have worked with who uniquely stands out. During our time together, he displayed great talents in the following areas like

- Telecommunication
- Cyber Security
- IT service and network management

When we first met, I was immediately impressed with him, but during the time worked together, his understanding of Networking and IT services and amazing technical skills grew him far more than that of his peers. It's not just his technical skills that impress me but also his ability to function as a productive member of a team. However, he was a joy to work with because of his amazingly positive attitude, intelligence and creativity were also necessary and valued not just by myself, but by his peers, who often relied on him to get the job done.

His excellent communication skills, positive outlook, and pleasing personality enhance his natural leadership qualities. His willingness to accept challenges and listen to input enables him to contribute thoughtful, well-reasoned approaches to helping others solve difficult problems.

I am confident that he (**Mr. Sumant Mishra**) would be a great fit for your organization. Not only will he bring the kind of skills and experiences you're looking for in an applicant, but he will also quickly become an asset and help your organization grow in any way he can.

If you need more information or specific examples, please do not hesitate to contact me through Phone & Email any time.

As a recommendation letter likely only provides a snapshot of his talents and achievements, I would be happy to further elaborate on my time working with him.

Sincerely,

*K K Singh Yadav*
